Physiology

From the information given by esophageal pH, impedance monitoring and Bilitex™ probe, what is the rate of non-acidic reflux in normal subjects? <i>D. Sifrim</i>	3
What are the means of bicarbonate and chloride secretion in duodenum? <i>S.J. Konturek, P.C. Konturek</i>	7
What are the means of prostanoids and nitric oxide in mediation of the process of duodenal mucus-HCO ₃ ⁻ /Cl ⁻ secretion? <i>S.J. Konturek, P.C. Konturek</i>	11
What are the compared mechanisms of cellular defense in the esophagus and at the laryngeal level? <i>N. Johnston, J.A. Koufman</i>	15
Can preservation of the clearance mechanisms prevent the development of esophagitis in patients with duodenogastroesophageal reflux? <i>K. Geboes</i>	24
Can the role of antropyloric motor function in preventing duodenogastric reflux be assessed? <i>A. Smythe</i>	26

Pathophysiology

In patients with gastroesophageal reflux disease, what is the proportion of bile reflux events associated with acid reflux? <i>D. Sifrim</i>	31
What are the limitations of the avaluation of bile reflux <i>in vivo</i> ? <i>M.F. Vaezi</i>	32
What are the effects of bile acid activation of the mitogen-activated protein kinase pathways in Barrett's esophagus? <i>G.A. Sarosi Jr., R.F. Souza</i>	37
What is the relationship between the conjugation of bile acids and the pH of the refluxate? <i>D. Nehra</i>	44
Wha are the effects of bile acids, cytokines and apoptosis on esophageal epithelium? <i>K. Dvorakova, H. Garewal</i>	47

Is there a correlation between the detrimental effects of bile reflux and the pH of the refluxate? <i>P. Bechi, A. Taddei</i>	52
Is isolated bile reflux associated with significant mucosal damage? <i>C.G. Bremner</i>	54
What are the experimental effects of trypsin inhibitor on alkaline reflux esophagitis after total gastrectomy in rats? <i>T. Imada, T. Oshima, S. Hatori, Y. Rino</i>	56
Does the possible barrier disruption without morphological damage suggest the existence of diverse mechanisms of damage? <i>R.F. Souza</i>	59
Do cytokines play a role in the esophageal inflammatory process following duodenogastroesophageal reflux? <i>B.O. Onwuegbusi, S. Abdalla, R.C. Fitzgerald</i>	61
Is the term alkaline reflux a misnomer? <i>M.F. Vaezi</i>	64
<i>A. del Genio, V. Maffettone, G. Rossetti, F. Pizza, G. del Genio</i>	66

Investigations

Can duodenogastroesophageal reflux be quantitatively measured in man? <i>M.F. Vaezi</i>	73
What is the frequency of the association of duodenogastric and duodeno-esophageal reflux? <i>M. Fein</i>	77
What are the effects of vagotomy, pyloroplasty, and prokinetic therapy on gastric exposure to bile <i>C.A. Gutschow, J.-M. Collard, R. Romagnoli, M. Salizzoni, A.H. Hölscher</i>	82
Is ^{99m} Tc-HIDA scintigraphy of value in the assessment of enterogastric bile reflux? <i>L. Bonavina</i>	87
Wireless esophageal pHmetry: direct comparison with the standard probe <i>F. Mion, S. Bruley des Varannes, R. Thibault, P. Ducrotte, F. Zerbib</i>	88
How accurate is the Bravo™ technique? <i>G.A. Cargill</i>	91
How should the variability in the composition of duodenogastric reflux and especially the lack of assessing the pancreatic component be interpreted? <i>A. Smythe</i>	97

What is the <i>in vivo</i> reliability of the Bilitec™ 2000 sensor for the detection of bile in the gastric lumen? <i>R. Romagnoli, J.-M. Collard, P. Bechi, F. Baldini, M. Salizzoni</i>	98
Bilitec™ 2000: what does it actually measure? <i>F. Baldini, P. Bechi, A. Taddei</i>	104
Is bilirubin, as assessed by Bilitec™, a good tracer for duodenal reflux into the esophagus? <i>A. Smythe</i>	109
What is the level of sensitivity and reliability of Bilitec™ at low pH values and high bilirubin concentrations? <i>P. Bechi, A. Taddei, F. Baldini</i>	112
What is the clinical usefulness of Bilitec™ in the esophagus? <i>J.E. Richter</i>	117
What is the value of the multichannel intraluminal impedance monitoring in the assessment of non-acid gastroesophageal reflux? <i>G.W. Falk</i>	120
<i>M.F. Vaezi</i>	123

Symptomatology

What is the percentage of gastroesophageal reflux disease patients with exclusive esophageal symptoms? <i>G.R. Locke</i>	129
What is the prevalence of duodenogastroesophageal reflux in patients with gastroesophageal reflux disease? <i>M. Fein</i>	132
What are the symptoms related to non-acid reflux? At what stage do they occur? <i>S.M. Harding</i>	136
Does a positive test indicate a relationship between symptoms and acid reflux? <i>G. Nardone</i>	139
Extradigestive manifestations of duodenogastroesophageal reflux and control of nocturnal acid secretion <i>F. Mion</i>	141
What are the circadian variations of intragastric acid, pepsin, and bile acids content in patients with reflux esophagitis? <i>D. Nehra</i>	143
Is antroduodenal motility altered after cholecystectomy? <i>P. Naughton, W. Robb, T.N. Walsh</i>	146

Extraesophageal symptoms

According to epidemiological studies on gastroesophageal reflux disease, what is the frequency of extradigestive symptoms? <i>U. Peitz, P. Malfertheiner</i>	153
What are the mechanisms by which gastroesophageal reflux may cause extraesophageal disorders? <i>S.M. Harding</i>	156
What is the importance of the temporal relationship of reflux with atypical symptoms of gastroesophageal reflux disease? <i>G.W. Falk</i>	159
What are the otolaryngologic manifestations epidemiologically linked to gastroesophageal reflux disease? <i>J.A. Wilson</i>	163
Can acid reflux be considered among the causes of middle ear effusions? <i>A. Tasker, P.W. Dettmar, J.P. Pearson</i>	164
Should the presence of pepsin in the middle ear be considered as a marker of prior gastric reflux? <i>A. Tasker, P.W. Dettmar, J.P. Pearson</i>	168
Are there specific ear, nose and throat findings or esophageal pH parameters that distinguish patients with suspected reflux laryngitis? <i>J.A. Wilson</i>	171
What is the information given at the upper probe in patients with suspected reflux laryngitis? <i>R.J. Toohill, H.J. Yun, A.L. Merati</i>	172
What should the value of the drop in pharyngeal pH be to authenticate a real reflux episode? <i>J.A. Wilson</i>	180
Considering the still potent enzymatic activity of gastric juice at high pH values, what should be the pH threshold to consider above the upper esophageal sphincter? <i>V. Strugala, J.P. Pearson, M. Panetti, J.A. Koufman, P.W. Dettmar</i>	181
What is the information given by laryngeal biopsy for the evaluation of reflux laryngitis? <i>B. Oelschlager, N. Maronian, R. Haggitt, M. Bronner, J. Yang, V. Reyes, A. Hillel, T. Eubanks, C. Pellegrini, C.E. Pope II</i>	185
How can the role of the upper esophageal sphincter in the occurrence of ear, nose and throat, and pulmonary symptoms associated with gastroesophageal reflux disease be determined? <i>I.F. Herrmann, S. Arce-Recio, A. Rollo</i>	188

What is the prevalence of gastroesophageal reflux in patients with chronic cough? <i>B. Beltrán, G. Bastida, M. Nieto, A. de Diego, M. Perpiñá, J. Ponce, V. Garrigues.</i>	195
Is there any correlation between nocturnal gastroesophageal reflux, obstructive sleep apnea, and duodenal content in the refluxate? <i>S.M. Harding</i>	199
What is the rate of gastroesophageal reflux symptoms in patients with obstructive sleep apnea? How can symptom causality be proven? <i>S. Bor</i>	202
Is there a link between gastroesophageal reflux and bronchial asthma? <i>J.L. Mathew, S.K. Mittal</i>	206
What are the relations between chronic upper airways infection and gastroesophageal reflux in children? <i>F. Mion</i>	213
How should reflux episodes during sleep in children be investigated? <i>A.G. Coran</i>	215
Is laryngoscopy a useful tool to diagnose gastroesophageal reflux disease related aspiration? <i>D.W. Overby, B.K. Oelschlager, C.A. Pellegrini</i>	217
What are the indications of bronchial scintigraphy in the evaluation of pulmonary symptoms related to gastroesophageal reflux disease? <i>T. H. Leaven, J. Pal, J. Plemmons, S. Fink, T.K. Chaudhuri.</i>	221
Can correlation between intratracheal pH and bronchial adenocarcinoma be documented? <i>Ö.P. Horváth, K. Kalmár, G. Varga, F.T. Molnár</i>	223
What is the relation between pulmonary and esophageal function? <i>L.F. Johnson</i>	227

Histology

Are there histologic changes that indicate that the refluxate is alkaline rather than acidic? <i>H.D. Appelman</i>	235
Does duodenogastroesophageal reflux induce more severe histologic changes in the squamous mucosa than acid gastroesophageal reflux? <i>E. Montgomery</i>	238
Is reflux gastritis a distinctive histopathological entity? <i>G. Chejfec, G. Guzman-Hartman, S.J. Sontag, T. Schnell</i>	239

What is the current classification and grading of gastritis? <i>N. Ectors</i>	242
Can clinicopathologic correlations be defined in patients with gastritis? <i>G. Chejfec, G. Guzman-Hartman, S.J. Sontag, T. Schnell</i>	246
Are cardiac goblet cells a part of multifocal atrophic gastritis? <i>H.D. Appelman</i>	249

Medical treatments

Can the effect of acid-suppressive treatment on unconjugated bile acids favor mucosal damage? <i>K. Dvorakova, H. Garewal</i>	257
Should increase of duodenal bicarbonate secretion by amiloride, as shown in animal models, be considered in the treatment of patients with mucosal damage? <i>S.J. Konturek, J.W. Konturek</i>	258
What is the effect of acid suppression with proton pump inhibitors on esophageal and gastric motility? <i>C. Scarpignato, I. Pelosini, S. Contini</i>	262
According to the limitations of pH testing in patients with chronic cough, should therapy with proton pump inhibitors be systematically recommended for patients with abnormal gastroesophageal reflux? <i>R.H. Hunt</i>	272
Do proton pump inhibitors have a significant role in the cure of ear, nose and throat symptoms related to gastroesophageal reflux? <i>G. Nardone</i>	276
What is the optimal proton pump inhibitor treatment for patients with ear, nose and throat symptoms related to duodenogastroesophageal reflux? <i>M.F. Vaezi</i>	279
In patients with chronic cough, have the parameters of the symptom association probability index been validated? <i>S.M. Harding</i>	283
In patients with chronic cough, are these pH parameters predictive of improvement? <i>B. Beltrán, G. Bastida, M. Nieto, A. de Diego, M. Perpiñá, J. Ponce, V. Garrigues</i>	285
Should association of H ₂ RA to proton pump inhibitor therapy be considered for suppression of nocturnal acid reflux in gastroesophageal reflux disease patients? <i>J.E. Richter</i>	289

How can reduction of duodenogastroesophageal reflux following medical acid suppression by proton pump inhibitors be explained? <i>C. Scarpignato, I. Pelosini, S. Contini</i>	291
Can multichannel intraluminal impedance monitoring be used as a valid test for non-acidic reflux in patients with symptoms refractory to proton pump inhibitor? <i>D. Sifrim</i>	299
Can eradication of <i>Helicobacter pylori</i> be considered as a means of treatment for <i>Helicobacter pylori</i> positive patients with duodenogastroesophageal reflux? <i>U. Peitz, P. Malfertheiner</i>	300
Is there a protective effect of acid suppression against esophageal adenocarcinoma? <i>J. Sarosiek, M. Majewski, T. Jaworski, T. Skoczylas, G. Wallner</i>	304
<i>G. Triadafilopoulos</i>	308

Endoscopic treatments

Unresolved issues in the treatment of high-grade dysplasia and early cancer in patients with a Barrett's esophagus. <i>J. Bergman</i>	321
Laparoscopic transgastric esophageal mucosal resection for high-grade dysplasia <i>C.T. Frantzides, A.K. Madan, A. Keshavarzian, R.E. Moore, J.G. Zografakis</i>	324
Long-segment circumferential endoscopic mucosal resections for the treatment of dysplastic Barrett's esophagus: an animal study <i>Y. Jaquet, R. Pilloud, P. Grosjean, A. Radu, P. Monnier</i>	327
What are the medium or long-term results of endoluminal gastroplication in the treatment of reflux? <i>H. Abou-Rebyeh, N. Hoepffner, E. Osmanoglou, J.H. Haneke, R.E. Hintze, B. Wiedenmann, H. Mönnikes</i>	336
What are the effects of endoluminal gastroplication on extraesophageal pulmonary symptoms? <i>J.J. Liu</i>	341
What are the causes of the antireflux effects of the Stretta® procedure? <i>G. Triadafilopoulos</i>	344
Is gastroesophageal antireflux device a possible alternative to medical or surgical treatment of reflux? <i>N. Godin</i>	349

Surgical treatments

What is the technique to best calibrate the tension of a fundoplication wrap? <i>S. Contini, C. Scarpignato</i>	357
Is correlation of the coughing episodes mandatory for a good indication of antireflux surgery? <i>C.A. Gutschow</i>	365
Minimally invasive repair of large hiatal hernia with prosthetic reinforcement <i>C.T. Frantzides, M.A. Carlson</i>	367
Quality of life and results after laparoscopic antireflux surgery in patients with hiatal mesh prosthesis <i>F.A. Granderath</i>	374
Can the effect of antireflux surgery on pharyngeal reflux be assessed? <i>D. Overby, B.K. Oelschlager</i>	380
In post-gastrectomy duodenogastroesophageal reflux, what patients benefit most from a Roux-en-Y duodenal diversion? <i>L. Bonavina</i>	382
Following partial gastrectomy are hyperplastic changes of the foveolar epithelium related to bile reflux? <i>P. Bechi, A. Taddei</i>	384
Can Barrett's esophagus develop after total gastrectomy and construction of a long Roux-en-Y jejunal loop? <i>P. Strignano, J.-M. Collard, R. Romagnoli, M. Salizzoni</i>	386
Does a long Roux-en-Y jejunal loop completely prevent jejunal juice from refluxing into the foregut? <i>J.-Y. Mabrut, J.-M. Collard, R. Romagnoli, C. Gutschow, M. Salizzoni</i>	391
What are the results of chodochojejunostomy with a Roux-en-Y limb in the treatment of primary bile reflux gastritis? <i>S. Contini, C. Scarpignato</i>	400
What are the effects of bile diversion surgery on gastric histology? <i>P. Bechi, A. Taddei</i>	408
What is the incidence of stomal ulcers following duodenal switch? <i>B. Zilberstein, C.E. Fonseca Pires, J.J. Gama-Rodrigues</i>	410
What are the side effects of the duodenal switch operation? <i>J.-M. Collard, J.-M. Michel, R. Romagnoli, C. Gutschow, J.-Y. Mabrut, M. Salizzoni</i>	414
Is gastric surgery a risk for Barrett's esophagus or adenocarcinoma? <i>L.B. Koppert, H.W. Tilanus</i>	420

Barrett's esophagus

What are the compared deleterious effects of bile acids and trypsin concentration in the refluxate of animal models? <i>X. Chen</i>	427
The spectrum of pathologic findings in rat models of reflux-induced esophageal injury <i>E. Montgomery</i>	431
Barrett's esophagus: is there a clinically useful animal model at all? <i>X. Chen</i>	436
Can the respective roles of acid and bile in the development of Barrett's esophagus be assessed? Should a synergistic action be envisaged? <i>J.E. Richter</i>	443
Is the duodenogastric reflux Bilitec™ profile different in gastroesophageal reflux disease patients with and without Barrett's esophagus? <i>R. Romagnoli, J.-M. Collard, A.M. Serra, E. Battaglia, L. Dughera, A. Repici, M. Salizzoni</i>	445
Is there a different bilirubin exposure in the long segment compared to the short segment Barrett's esophagus? <i>C.G. Bremner</i>	450
Is there greater bilirubin exposure in complicated Barrett's esophagus? <i>W.B. Robb, P. Naughton, T.N. Walsh</i>	451
Can a prophylactic effect of medical therapy on the development of Barrett's esophagus be envisioned? <i>S. Sontag</i>	460
Are there specific effects of proton pump inhibitors on the development of dysplasia in Barrett's esophagus? <i>R.E. Sampliner</i>	463
Is there a role for the non-endoscopic surveillance of Barrett's esophagus? <i>A. Chak</i>	464

Adenocarcinomas

What can be shown on the induction of mucinous adenocarcinomas in animal models with duodenoesophageal reflux? <i>M. Fein</i>	471
Is there an experimental basis to establish a proven relationship between duodenogastric reflux and esophageal gastric or esophageal carcinomas? <i>M. Fein</i>	474

What can be shown in experimental studies with the esophagogastroduodenal anastomosis model of esophageal adenocarcinomas? Role of oxidative stress and aberrant arachidonic acid metabolism in carcinogenesis <i>X. Chen</i>	478
What is the compared rate of development of adenocarcinoma in experimental duodenogastroesophageal reflux and gastroesophageal reflux models? <i>F.H. Ellis Jr</i>	485
Can duodeno-esophageal reflux alone, without exogenous carcinogen, induce esophageal carcinoma in animal models? <i>M. Fein</i>	489
Are genetic changes alone, without reflux, able to produce esophageal adenocarcinoma? <i>X. Chen</i>	494
What is the role of genetic changes in the malignant transformation of Barrett's esophagus? <i>J.M. Streitz Jr, F.H. Ellis Jr</i>	498
Cyclooxygenase 2 expression in adenocarcinoma of the distal esophagus and esophagogastric junction <i>J.J.B. van Lanschot, C.J. Buskens</i>	502
Does <i>Helicobacter pylori</i> infection have a role in the development of Barrett's carcinoma? <i>U. Peitz, P. Malfertheiner</i>	506
Has duodenogastric reflux a role in dyspepsia with non <i>Helicobacter pylori</i> gastritis? <i>A.P. Weston</i>	512
Has duodenogastroesophageal reflux a role in the symptoms of negative <i>Helicobacter pylori</i> functional dyspepsia? <i>J.C. Prolla, L.E. Mazzoleni, G. Becker Sander</i>	515
What is the most cost-effective approach to screening for Barrett's esophagus and esophageal adenocarcinoma? <i>N. Shaheen</i>	518
What diagnostic approach should therefore be recommended in a patient suspected of duodenogastroesophageal reflux? <i>J.E. Richter</i>	522
The clinical identification of patients suffering from pathologic duodenogastric or duodenogastroesophageal reflux <i>M. Borkar, S.J. Sontag</i>	525
